This is on the occasion of the 60th anniversary of Sakai's characterization of the W^* -algebras.

The summer school and conference are open to everyone.

Supported by the Mathematical Society of Japan, Grants-in-Aid for Scientific Research "Operator Algebras and Applications to Mathematical Physics" (Y. Kawahigashi, 15H02056), Grants-in-Aid for Scientific Research "Symmetries of Operator Algebras and Subfactors" (M. Izumi, 15H03623) and International Association of Mathematical Physics (category C).
